Industrial Visit

Educational institutes in India are largely adopting industrial visits as a value-added learning method for management students. Learning from textbooks, lectures and other study material does not suffice for holistic learning. Practical, hands-on learning is essential for better understanding of work processes and business functions.

Industrial visits give greater clarity about important management concepts, as students practically experience how these concepts are put into action.

7 benefits of Industrial Visits for students:

1. For students pursuing professional education industrial visits help them gain hands-on experience of how industry operations are executed.
2. Industry visits bridge the gap between theoretical training and practical learning in a real-life environment.
3. Industry visits provide opportunity for active/interactive learning experiences in-class as well outside the classroom environment.
4. With industry visits, students are able to better identify their prospective areas of work in the overall organizational function.
5. Industry visits help enhance interpersonal skills and communication techniques.
6. Students become more aware of industry practices and regulations during industry visits.
7. Industry visits broaden the outlook of students with exposure to different workforces from different industries.

Eligibility for D. Pharm

Candidates who have passed 10+2 examination of any recognized Board with Physics and Chemistry along with either of Mathematics/Biotech/Bology/Technical Vocational Subject are eligible for admission to 1st year of D Pharm. Programme. Eligibility criteria for admission to management quota of vacant seats is minimum 50% marks in Physics, Chemistry, Maths/ Biotech/ Biology.

Pharmacognosy Labs

Pharmacognosy is the branch of pharmacy that deals with the study of medicines derived from natural sources. It also includes the study of history, cultivation and collection of crude drugs. The laboratories are well equipped with instruments like projection microscope, colony counter, Sterility testing unit, Zone Reader, Laminar air flow, BOD incubator etc.

Pharmaceutics Labs

Pharmaceutics is branch of Pharmacy that deals with all facets of turning a new chemical entity into a medicated formulation like tablet, capsule, syrup, injection, inhaler etc. which can be safely and effectively used by patient. Pharmaceutics laboratories are equipped with instruments like dissolution apparatus, sieve, shaker, disintegrator, friability test apparatus etc.

Pharmaceutical Chemistry Labs

Pharmaceutical Chemistry is the branch of Pharmacy that deals with design, development and synthesis of Pharmaceutical Drugs. Pharmaceutical Chemistry Laboratories are well equipped with instruments like Digital PH meter, Calorimeter, Hot air oven, Microwave oven etc.

Pharmacology Labs

Pharmacology is the branch of Pharmacy that deals with the study and description of the actions of drugs and chemicals on cells, tissues and the whole body. It includes study of the mechanism of action or drugs and finding out how drugs produce beneficial and adverse effects. Pharmacology Laboratories are well equipped with modern and sophisticated instruments like student Organ baths Rotating drums, photoactometer Rotarod, Electgroconvulsometer, Plethysmograph, Eddy's hot plate, Histamine chamber, Cook's pole climbing apparatus etc. Computer based simulations and software are also provided to the students. The Human Anatomy Museum has a very good collection of charts and models.

Computer Lab

Bharathi College of Pharmacy has computer center of 150 sq. meter and provided with 60 branded PC, server with internet connectivity along with printers, multimedia projector and various softwares.

Instrument Lab

Bharathi College of Pharmacy has instruments like HPLC, UV Spectrophotometer, Nephelometer, Flame Photometer, Electrophoresis, Polarimeter phase Contrast Microscope, IR Moisture balance etc. These instruments are highly sophisticated instruments required for Research and Development.

Herbal Garden

The main aim of the herbal garden is to preserve and promote the medicinal value of the plants which grow mostly wild, in our surrounding and whose properties are beneficial in maintaining a balance between man and nature. The herbal garden generally consists of all the herbs which have medicinal and aromatic properties. Herbal gardens are the precious source of raw material for medicinal remedies uses in Primary health care.

RULES AND REGULATION

Keeping in view the aims and aspiration of **Bharathi College of Pharmacy** certain rules and regulations have been framed to be strictly followed by trainees.

These rules have been formulated not to bind the trainees within the premises but to make them understand the value and standard of discipline, which, when, followed meticulously by the trainees, help them to emerge into a more determined, matured and knowledgeable individual. A full hearted support from our trainees and guardians are thus solicited.

1. Students shall strictly comply with the rules and regulations of the college issued from time to time relating to their studies, examination, conduct and discipline.
2. The student, who secure admission on the basis of false certificate / marks sheet or on the basis of any misrepresenting of facts or illegal means, shall be summarily cancelled and all fees paid by him/her shall be forfeited. Legal action shall also be taken against them.
3. Candidates are required to enclose along with their application, the affidavit before a Notary Public stating that all information given by them is true.
4. Application accompanied with requisite documents/enclosure receive after the last date shall be summarily rejected.
